- Our employees are experienced in caring for patients with Dementia and Alzheimer's. AT Home Care Staffing offers one in Nursing and Rehab facilities, Assisted Living Communities, Senior/Independent Communities, Hospitals and Patients' Homes.

So one of our main goals with our care is to keep you in your home as long as possible, as safe as possible. One of the ways we assure that is through the addition of Virtual care. This is something that separates us from other home care agencies because we have a way of protecting you even when our caregivers are not present. What it is, is an audio based system, that is able to detect any care related events, and notify us, so we will be able to respond. For example, If you were ever to fall, be calling out for help, or call emergency services, it would send us a notification so we can make sure you are ok. On top of that, it will be able to give us valuable data that can help us ensure you are getting the highest level of care. We believe in this solution so much, and it gives us such great results that this is standard of care for us, which means there is no additional cost for you.

SENSI NEVER TAKES A DAY OFF—ALWAYS BY MY MOTHER'S SIDE."

SENSI GIVES ME THE INDEPENDENCE I WANT IN THE PLACE I LOVE."

**Fewer Hospitalizations**  
Minimizing hospital trips and cutting healthcare costs.

**Reduce Burden on Family Caregiver**  
With Sensi as a virtual companion—always there, always caring.

**Prolonged Independence at Home**  
Allowing elders to age in place, where they love.

#### High Level Overview

Recently we brought on a new solution called Sensi. It gives us the ability to offer Virtual Care, which gives us the ability to offer around the clock protection, even

One of the major reasons we chose this solution over competitors, is they have shown a track record of prevention that has led to a decrease in rehospitalization. They are able to pick up on trends that lead to falls, signs of cognitive decline, and even the ability to detect UTI's.

COMFORT HOME CARE

### HEALTH CARE IN THE COMFORT OF YOUR HOME

Whether you, or someone you love, needs assistance in the essential activities of daily life, companion care, medical, nursing, social or therapeutic our highly qualified specialists take pride in offering you the best care available, in the comfort of your own home

As guests in your home, never forget that our service is more than just treating symptoms; it is caring for your individual needs. We are able to evaluate our personal care patients for skilled care should they need it. This provides a unique continuity of care and seamless transition for a patient. We are a family-run business and have been caring for Virginians for over 15 years.

### Evaluations Done by Licensed Nurses

A Registered Nurse will conduct a preliminary evaluation to determine the types of services needed in your home. Our staffing team, together with family members and other health care professionals, work to develop a care plan which includes details about the care to be provided, the frequency of care and the duration of care needed. The care plan is
